[Ingredients] High alkyl sulfate, non-ionic surfactant, sodium metasilicate, calcium carbonate, sodium carbonate.

[Washing Characteristics]

Easy, Effective & Economical, Laundry Balls Type E unleashes the ionic cleaning power inside your washer for a super wash every time! Through a unique molecular ionization process, the laundry balls naturally and gently clean laundry without the use of harsh chemicals. The balls are powerful, foamless, fresh, reusable, detergent free, soap free, no harsh chemical, no Phosphorus, Boron, ABS, LAS or SAS. Hypoallergenic, safe for use on children' and infants' clothes, protect the fibre during the washing, and reduce the pollution of environment.

[Advantages]

1. Environmental friendly and safe, no need of pre-using textile softener, no irritability chemicals and innocuity.
2. Soap & detergent free, no soapy film or residue left on clothes.
3. Hypo-allergenic no harm to the skin and anti-bacterial that can kill Escherichia Coli and Staphylococcus aureus
4. Safe and economical, save water, save electricity and save time through reducing bleaching times. Only spends several penny for per laundry.
5. Fastness, with very cleansing, no damage to fibre. Free of dyes and keep fragrance
6. Can work as usual no matter under the condition of any temperature.
7. Easy use and take portably, no need of taking out of the balls, measurement and perfusion. Easy store.

[Instruction For Use]

1. Each laundry ball is capable of cleaning up to about 60 loads of wash and per box can be repeatedly used 120 loads of wash based on a 20 minutes wash cycle. If wash cycles are shorter, the laundry ball will last even longer! Bubbles may appear in hot water washing, whilst cleaning effect is better even though wash load will be less.
2. Place load in washer. Be careful not to overload. Use one laundry ball for loads up to 3 kg, 2 balls for 3-7kgs and 3 balls for heavy

Type E-3

loads or hard water.

3. Use the stain-remover on stubborn dirt and stains. Bleach agent may also be added to wash loads as desired. Select desired water temperature (Do not exceed 80°C) and load size. There is no need to remove the laundry balls during rinse, spinning or drying cycles.

4. When laundry is finished, remove the laundry balls, dry under the sun or store in a cool, dry area in preparation for the next use. To wash by hand-closing may be presoaked for 20 minutes with the laundry ball; then be gently hand washed to complete the process.

[Caution] Laundry balls of type E are not a toy and should be kept away from children.

[Application] Suitable for washing any kind of color and texture clothing outside material, specially good for children' and top grade clothing
